U. S. Marshal's Notice.
UNITED STATES OF AMERICA } ss
District of Oregon }
WHEREAS a libel of information has been filed in the District Court of the United States of America for the District of Oregon on the 4th day of March A D 1863, by E[illegible] W. [illegible] Attorney of the United States for the said District of Oregon in behalf of the United States against the ship or vessel to-wit The steamboat called the Maria, her tackle, apparel and furniture, alleging in substance that William L Adams Esq Collector of the Customs for the Port of Astoria on the 3d day of March 1863 at the Port of Portland in said District of Oregon on waters navigable from the sea by vessels of ten or more tons burthen seized said ship or vessel to-wit said steamboat called the Maria her tackle apparel and furniture, and then held the same [illegible] Port of Portland [illegible] of the United States of America that said steamboat being an American ship or vessel, duly registered as such at the Port of San Francisco, in the District of California in the year 1860 at the Port of Victoria, on Vancouver's Island, the same being a foreign port sold or transferred, in whole or in part, in trust confidence or otherwise, to a subject or subjects of Her Britannic Majesty [illegible] in the month of August 186[illegible], the said steamboat Maria did enter the Port of Astoria in said District of Oregon the same being the first American Port at which she had entered since said sale or transfer and that said sale or transfer was not made known, as by law required contrary to the statute in such case made and provided; and that by said sale and transfer and the neglect to make the same known as aforesaid, the said steamboat her tackle, apparel and furniture became forfeited to the United States of America And that a certificate of registry granted to the said steamboat Maria, as an American vessel at the port of San Francisco, in the District of California July 2[illegible] 1858 was on the 8th day of August 1862, at the Port of Astoria in the District of Oregon fraudulently and knowingly used for said steamboat Maria she being a ship or vessel not then (to-wit on said 8th day of August 1862) actually entitled to the benefit thereof according to the true intent of the Act of Congress entitled An Act concerning the registering and recording of ships or vessels approved December 31st, 1792, by which fraudulent or knowing use of said certificate of registry the said steamboat Maria, her tackle, apparel and furniture became forfeited to the United States of America And praying that the same may be condemned as forfeited as aforesaid
Now therefore in pursuance of the monition under the seal of the said Court to me directed and delivered I do hereby give public notice to all persons claiming the said ship or vessel to-wit the said steamboat Maria her tackle apparel and furniture that they be and appear before the said District Court to be held at the Court House in the City of Portland in and for the said District of Oregon on the first Monday of April next at ten o'clock in the forenoon (provided the same shall be a day of jurisdiction otherwise on the next day of jurisdiction thereafter) then and there to interpose their claims and make their allegations in that behalf

OFFICIAL PAPER OF THE CITY

No flag but the Old Flag—the Red, Whi e and Blue,
With the stars of a Union unbroken and true!
Arise and defend it! ye sons of the brave
Whose blood bought the banner your valor must save

WEDNESDAY MORNING, MAR 18 1863

Stand by the Flag

Every man, to whatever party he may belong, who loves his country, who wishes the honor of the flag maintained, will respond cordially to the manly sentiments of Washington Irving, written at the time of our last war with Great Britain They are as true today as they were then He writes "What ever we may think of the expediency or inexpediency of the present war, we cannot feel indifferent to its operations Whenever our arms come in conflict with those of the enemy, jealousy of our nation's honor will swallow up every other sentiment our feelings will bear in sympathy the flag of our country to battle, rejoicing in its glory, lamenting over its defeat, for there is no such thing as releasing ourselves from the consequences of the contest. He who fancies he can stand aloof in interest, and by condemning the present war, can exonerate himself from the shame of its disasters, is wofully mistaken Other nations will not trouble themselves about our internal wranglings and party questions — They will not ask who among us fought, or why we fought, but *how* we fought The disgrace of defeat will not be confined to the contrivers of the war, or the party in power, or the conductors of the battle, but will extend to the whole nation and come home to every individual. If the name of American is to be rendered honorable in the fight, we shall each participate in the honor, if otherwise we must inevitably support our share of the ignominy" Irving's Life, vol I, p 310

OUR MORNING DISPATCHES are quite lengthy again, and contain several items of local interest. Among the appointments for Idaho, we notice those of Richard Williams (supposed of Salem) as U. S Attorney, and W B Daniels as Secretary The latter is presumed to be an intelligent gentleman of that name from Yamhill county, who has been a clerk of one branch of the Legislature

The great Almaden Mine case, which has excited so much interest in California, has at last been decided against the claimants, who will lose an amount estimated by millions — We hardly know how to sympathize with them. If it were of small value we might pity them, but sixty millions!!—we have no dea upon the subject.

The San Francisco Custom House and Mint have been upon the coals in presence of Mr Chase, who sent Mr. Thomas Brown out to California, "diligently to inquire, and true presentment make in regard to them" The result is that Mr Stevens, a son in-law of Col. Baker—never appointed as a Republican, but for other reasons, is to be removed, and the Collector, Mr Rankin, will be allowed to die, Japanese fashion, or otherwise as suits him, only he must leave the Custom House, for some reason not stated. Verily, office-holding on this coast is a very uncertain sort of business, especially under this Administration. No one can imagine what a telegraph will bring forth. We have heard that two or three in this State, who now enjoy dignities and emoluments, are not far from their loss So we hope they will be always ready for their successors, with serene resignation, knowing that now-a days it is almost as surprising to keep an office as it is to get one The cause we will not discuss, but refer all concerned to those who represent us at Washington

We need not remark on other items of the dispatch, except to mention that intelligence of the safe arrival of the steamer *Sonora*, after 16 days passage, will give many of our readers, who have friends on board, great relief.

FROM THE MINES —The papers from the upper country bring but little news from the mines. The snows were melting and miners in the different districts were preparing to work Attention is turned to the Beaver Head country, where the miners have taken out from five to fifty dollars a day About a thousand persons have wintered there Rich quartz lodes have been discovered "Dacotah" lode pays $8 to the pan Other mines have been discovered on the dividing range between the Pacific and Atlantic An express was to be run to Salt Lake City

Miners are busy at Elk City Ditches are being rapidly completed A nugget of smooth gold was found on Relief Creek weighing three ounces Several other pieces weighed from five to thirty dollars About Elk City prospects are better than ever before

Small boats are successfully ascending Snake river above Lewiston Some have reached Pittsburg Landing, about 100 miles above Lewiston No trouble is anticipated for steamers

The miners on the Little South Fork of Clearwater are going to work immediately, the ice having disappeared

Miners on Salmon and John Day's Creek have been doing a remunerative business during the last winter

The Massachusetts cavalry battalion, now organizing in California, will leave for the east on the 21st It numbers 433 officers and men.

[SPECIAL DISPATCHES TO THE OREGONIAN]

LATER FROM THE EAST.

Dates to March 11th.

NEW YORK, March 10 —The money market is steady, Sterling Exchange 177 Gold closed at 57@59

A special dispatch from Washington says the removal of Gen Curtis from the Department of the West is officially announced

The report of the rebel attack upon Paducah was contradicted

A Havana letter dated March 3 says the schooner *Oc a Bird* [illegible] the 24th of February the wreck of a steamer painted black 22 miles from Abaco light house There were no signs of life near her On the same day the schooner picked up two water casks Nothing has been heard of the *Florida* since the gunboat *Sonoma* chased her in a heavy gale one hundred miles from Abaco, and it is conjectured that the wreck might have been the pirate

CHICAGO, March 10 —To-day's *Times* has a special dispatch dated Coldwater river, March 5 which says that Grant's expedition left Moon Lake Wednesday morning, reaching the end of the Pass yesterday at noon, 12 miles in three days and half of the boats were much broken in light upper works, but not one was damaged in the hull or machinery The soldiers and seamen were occupied at every turn in cutting down trees and opening the channel There was great danger of being dashed against the trees A battery is reported at the mouth of the Coldwater The health of the expedition is good Later dispatches, dated Coldwater March 5, say that the expedition has advanced 20 miles since the last report The country is entirely destitute of population

NEW YORK, March 10 —The steamer *Roanoke* with New Orleans dates to March 1st, and Havana to March 5th arrived The information has been filed in the Provisional Court of the confiscation of the Slidell property in New Orleans The New Orleans *Era* of the 1st states that 20 rebels who were recently sent through the rebel lines, returned begging to be allowed to take the oath of allegiance, and for bread All were suffering from actual hunger and the children were crying for food They give a dreadful statement of the destitution in rebeldom

Vera Cruz advices state that the French army is entirely inactive, being unable to accomplish anything without large reinforcements The French officers are disgusted The health of the soldiers is very poor Whole trains of supplies from Vera Cruz have been captured The French are constructing a railroad to Puebla, and the guerillas are annoying them by stealing the rails and running the cars off the track

Second Dispatch.

CHICAGO, March 11th —From several military centers of interest comes the announcement of perfect quiet reigning There is nothing new from Vicksburg; everything in statu quo in Virginia, South Carolina and Louisana

WASHINGTON, March 11th —The Senate, in executive session, confirmed the following nominations —William H Wallace, of Washington Territory, Governor of Idaho Wm B. Daniels, Secretary of the Territory of Idaho, Sidney Edgerton of Ohio, Chief Justice of the U S court in Idaho Territory, Samuel C Parks, of Illinois, and Alex C Smith of Idaho, Associate Justices for Idaho, Richard Williams, Attorney of the U S court of Idaho John A Gurley, of Ohio, Governor of Arizona, Milton B Duffield of California, U S Marshal of Arizona, Wm S Howell, Associate Justice of the U S court for Arizona, John M Goodwin, Chief Justice of U S court for Arizona; Richard C McCormick, of New York, Secretary of Arizona, Ebenezer Peck of Illinois Judge of Court of Claims, Stephen G Fields, of California, Associate Justice of the Supreme Court of the United States, Joseph Lewis, of Penn., Comptroller of Internal Revenue, Moses W Olcott, of New York, Comptroller of Currency, 1st Assistant The committee on the conduct of the war will probably do little until next Congress

The law does not provide bounty to those soldiers from disability from other causes than wounds, only those wounded and discharged have obtained bounty

Thomas Brown, appointed special agent of the Treasury Department, to investigate the condition of subordinates on the Pacific Coast, has made a report, accompanied by large and voluminous testimony The result will be the removal of Robert G Stevens, Superintendent of the Mint at San Francisco, for the retension in office of worthless subordinates Collector Rankin will probably be allowed to resign

The decision of the Secretary of the Treasury allowing foreign steamers to compete with the mail line, will not be introduced though Robert G Walker and others urge that it may be

WASHINGTON, March 10th —The Supreme Court was the scene of great interest to-day being engaged in rendering important decisions At least fifty of the most eminent lawyers of the country were present The decision in favor of the Government in the New Almaden mine case involves property estimated at $60,000,000 in value Not altogether unexpected and unimportant decisions in prize cases, were announced by Judge Grier ruling every point in favor of the Government, and condemning all vessels which violated the blockade Justice Nelson delivered a desenting opinion that the civil war did not exist until after the 13th day of July 1861 therefore the President has no power to set on foot a blockade under the law of Nations, and that decisions in condemnation should be reversed and vessels and cargo restored This dissenting opinion was concurred in by Justices Catron and Clifford

SALT LAKE, March 11th —The dispatch published in the New York *Herald* at the 10th inst, and published in the Salt Lake papers this morning, so far as regards my acts and intentions, is false

SAN FRANCISCO March 9th —A fair amount of business has been done in grain to day but otherwise trade has not much interest Hay has declined On the upper side of steamer day, there is appearance of less demand for gold bars than was expected, the rate to day is 880 fine bar, and it is thought the market to morrow would scarcely reach 900 This, in part results from the complexion of late eastern advices and in part from the fact that recent receipts, though not large have not been swept off by the demand from China buyers Silver bullion, also, is rather drooping and the supply on hand [illegible]

City Trade—Flour extra $6@6 25 wheat, for export $1 77½ milling to bring $2, and 1 512 sacks fo [illegible] at $1 90 hay [illegible] tons fair at $10 [illegible], 20 [illegible] good quality at $12 [illegible]

SAN FRANCISCO March 10th —The match between Daly and Lazarus was fought to-day, one mile from Lakeville Sonoma county The parties reached the ground about noon The battle lasted two hours and ten minutes There was 39 rounds On the last round Lazarus went down without receiving a blow, and the judges decided in favor of Daly The friends of Lazarus say that Daly struck him three foul blows Lazarus called attention to it, but said it was no matter as Daly was a novice Daly was badly punished about the nose and mouth Lazarus was hardly scratched On the up passage three men fell overboard from the *San Antonio* but were rescued There was only one knock down outside the ring, but much fighting talk

SAN FRANCISCO, March 11th, 10 o'clock P M — A private telegram was received from the East to-day stating that the claim of Joseph D Galbraith and others for the Baisey de Ton r les in Marin county, has been rejected by the U S Supreme Court

The steamer *Sonora* arrived to-day She brings 500 passengers and mails the passage in 16 days

Col Conner is to be heavily reinforced

GETTING TO THE REAR OF VICKSBURG —The following is from some recent correspondence of a St Louis paper, written by a gentleman in Gen Grant's command

By order of General Grant, Gen Gorman with about five hundred men bearing arms and also pickaxes and shovels, accompanied by Lieut Col Wilson on Gen Grant's staff as chief of the engineer corps moved down to the Yazoo Pass which is about six miles below Helena, and near Delta on the Mississippi side, and after removing some drift and large trees, succeeded in landing their boats at the levee The levee is built across the bayou or pass leading from the Mississippi river into the Coldwater, about fifteen miles above its mouth. The water South of the levee is about ten feet below the water level of the Mississippi at its present stage, consequently the destruction of the levee at this point will at once result in the overflow of the country for fifty miles in every direction and open a navigable channel for ordinary boats to the Coldwater, thence to the Tallahatchie and to the Yazoo.

The troops were immediately employed in cutting the levee, under the supervision of Lieut Col Wilson, and the water will be let in at once A navigable channel will thus be opened to the rear of Vicksburg in a direction which is not fortified by the rebels, and I can see nothing to prevent our mosquit fleet from moving immediately into the Yazoo and of taking possession of the rebel steamers that run the river. Moreover, a formidable army threatening the rebels at Vicksburg from this direction must strike terror to their hearts, and result in their final discomfiture and overthrow General Grant, in the mean while is not idle In the midst of obstacles apparently insurmountable, he is laboring on, controlling circumstances, and will, in my opinion, finally overcome all opposition, and take possession of Vicksburg

LOYALTY OF THE WEST POINT GRADUATES — If it be asked, how does the dismissal of Gen Fitz John Porter bear upon the question of the loyalty of the West Point graduates? the obvious answer is, that the Court Martial was composed of nine generals, and of these, *seven*, all but two, were West Point graduates — These seven are Gens Hunter, Hitchcock Rufus King, Ricketts, Casey Buford and Morris—with one exception, all veterans of the Regular Army

Brig Gen Roberts, the Inspector General of Pope's army, and the prosecutor, is a West Point graduate Col Holt, the Judge Advocate, is not a graduate

The statement shows clearly that this decision of the Court is to be regarded as evidence of the high integrity of the West Point graduates More than six hundred and twenty of them have remained loyal, while but one hundred and ninety seven, and these chiefly Southerners, resigned their commissions at the commencement of the rebellion

COLONEL OF THE OREGON REGIMENT —We have heard the names of several gentlemen mentioned in reference to this position, but suppose the selection will be between Lieut. Col Maury of the Regiment, or Major Lugenbeel, of the Regular Army

We have a high respect for both these gentlemen, and doubt not the qualifications of either, but we trust we shall be excused for saying that when an officer has proved himself competent and faithful in a subordinate position, promotion belongs to him as a matter of right, and therefore we earnestly hope that Lieut Col. Maury may receive the commission His appointment would gratify his numerous friends, and while it will promote the welfare of the Regiment by giving general satisfaction to its officers and men it cannot fail also to be a public benefit on account of his entire fitness and capacity

SUICIDE —The *Mountaineer* says that a man named Joseph Jackson committed suicide on Monday by drowning himself in the Columbia River He was employed on the Des Chutes Railroad, but lately had been dissipating rather extensively He was a native of England and aged about 45 years

Some cautious genius states, as the result of an estimate, that a million one dollar Treasury notes would weigh over a ton and make a pile as high as the Washington monument This will give some idea of the labor of preparing our Treasury note issue

PLEASURE EXCURSION.—The new steamer *E. D. Baker* returned from Vancouver yesterday about 11 o'clock, A. M., all decked off with flags and flying colors, and bringing with her a large portion of the goodly citizens of that place, among whom we noticed a number of familiar friendly faces. After remaining a short while at her wharf the *Baker* started off up the river, crowded to overflowing with a gay throng of pleasure seekers, all apparently delighted with the swift and smooth gliding movements of the new and beautiful steamer, which carried them over the placid waters with great ease and gentleness, like a thing of life. Milwaukie was visited, and after giving time for the usual compliments to be exchanged between those on board and those on shore, the boat [illegible] ued and went on over to Vancouver in the evening. Enough was seen and tested of the *E. D. Baker* to prove her an entire success in the anticipation of her builders and owners, and a credit to our waters.

QUARTZ SPECIMENS.—We were shown, yesterday, by Mr. I. F. Block, of Block, Miller & Co., Dalles, Oregon, the richest specimens of quartz gold that we have ever before seen. These were two nuggets, one weighing 16 and the other 13 ounces. The 16 ounce nugget was fully nine-tenths gold, and the other more than one half. These specimens were taken out of Canyon Creek, John Day mines, by Wm. Accree & Co., who own a very rich claim at that place. They were found some 70 feet above high-water mark, and every indication exists of exceedingly rich lodes of quartz in that locality. We also saw some thirty or forty ounces of very fine appearing gold dust which came from the same region, among which were several lumps of considerable size. Such tangible evidence of the existence of gold in the mines of Eastern Oregon cannot be gainsayed.

ST. PATRICK'S DAY.—We believe the festivities anticipated by our Irish friends, in the celebration of St. Patrick's Day, were fully realized in every particular. The only portion, however, of the exercises of the day which we had the pleasure of witnessing, was the procession formed by the Portland and Vancouver Hibernian Societies, with music and banners, which presented a very fine and respectable appearance while marching through our principal streets. A grand ball was given in the evening, where all the lovers of the Terpsichorean art prolonged the festivities until a late hour.

The *Oregon Statesman* says the body of the man George Myers, missing from Silverton, was found a few days since in Butte creek, deeply imbedded in sand, only one foot and one hand sticking out. The community is now satisfied that he came to his death by accidental drowning, and all suspicion of foul play is removed.

WORTH KNOWING.—For the same price as you generally pay for a suit of slop clothing, Heuston, Hastings & Co., the celebrated Clothiers and Tailors of Montgomery street, corner of Sutter, San Francisco, will forward you an outfit that will give you satisfaction as to style, quality and workmanship. If you are unable to visit the city, send your measure and they will furnish you garments that will fit; or, if you do not mind waiting, they will send on to their New York house, and the goods will be delivered to you, made to order, in sixty days, without extra charge.

Consumption Curable.—DR. HALL'S BALSAM is better entitled to the confidence of CONSUMPTIVES than any remedy known; its peculiar action on the system excites the surprise and admiration of those who have tried various medicines without [illegible]. It is well worth a fair trial.

Coughs. The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them useful for clearing and strengthening the voice. See advertisement. dec16daw3m

DOCTOR VAN ZANDT,

CONSULTING PHYSICIAN & SURGEON,

Office, Corner of Washington and Sansome streets, San Francisco.

The GREAT SUCCESS of this CENTURY as an AID to PRACTICAL MEDICINE.

The Mysterious Power of Nature Electricity used to cure all Nervous and Spinal Diseases.

THAT THIS FORCE HAS BEEN SUCCESSFULLY APPLIED to the relief of [illegible] prove the great [illegible] physicians [illegible] principle of vitality [illegible] nervous influence [illegible] surely must have [illegible].

Too Much Cannot be Said

In its praise. [illegible] is highly probable that the electric principle [illegible] the body be positively electrified [illegible] charged [illegible] the system? [illegible] we must first [illegible].

Awaken the Magnetic Life within us.

The spinal [illegible] nerve systems [illegible] electrical [illegible] of the earth [illegible] take advantage of the [illegible] to the subject, that [illegible] may come to all.

No Compromise with Disease.

[illegible] the stomach, liver, heart, kidneys and all the natural functions active by ELECTRICAL excitation [illegible] the aged, the palsied, the nervous, the dispirited, the melancholic, the dyspeptic and the invalid revive under its benign influence.

To the Ladies of California.

Dr. Van Zandt's success with complaints of women, both in family and office practice, is owing to his treating [illegible] the origin of all their maladies. Ladies can consult him with entire confidence [illegible]—but is proving himself the only member of the legitimate profession in California who is really successful in removing those ills which are the peculiar province of the sex. His high appreciation of their delicately attuned nervous organism, together with their great sympathetic life, renders him doubly able to assuage those silent complainings which they bear so patiently and so long. No social disquietude [illegible] awaken the stricken energies [illegible] of the body, awaken the melancholic and despondings, arrest those drains which cause so much anxiety, cure those protean maladies which have so long

Baffled the Skill of Physicians.

Develope appetite, life and animation, dispel nervous headache, sinking at the stomach, wandering pains, wasting away of strength, extreme debility and lifelessness, hectic cough, sleeplessness, unpleasant dreams and that general depression of life's powers, which go to render her life a misery and death a boon. Dr. Van Zandt with his new method of exciting the Electro-Galvanic Current, together with his remedial means, which are adapted to the necessities of California, will assure you of a complete and radical recovery of all bodily and mental infirmities and will restore you to usefulness and spare you a blessing to your family and society.

All the world over

wherever disease exists, whether special to the soil and climate or common to all regions—epidemic or casual, acute or chronic, contagious or non-contagious—it is as necessary to restore the ELECTRO-GALVANIC equilibrium, especially in California, as it is to give food to the starving. This statement is based upon a series of facts extending through many years and verified by hundreds of patients, so that no principle of science, no rule of experience, no result of any well known cause rests upon more sure and unassailable foundations than those which underlie the world wide reputation of Electricity for the cure of all nervous states of the body, faulty digestion, mental and physical debility or prostration, coughs, asthma, [illegible] pains of a rheumatic, gouty or mercurial character, and all forms of disease the result of scrofula or cachectic habit of body.

None Need Despair of Relief.

If you have ulcers which will not heal—pains that cannot be removed—melancholy which you cannot shake off—loss of power which you cannot regain—depression of spirits which weigh you down—wakefulness that knows no sleeping—business that languishes for want of energy—a void which no sorrow can fill—suspicion which no assurance can allay—Go to Dr. Van Zandt, for his great success and the safety with which he administers his new method of electrical excitation, together with his remedies which are adapted to the requirements of climate and constitution, will assure you of a complete and radical removal of all bodily and mental infirmities within the scope of science and man to remove.

The Eye and Ear Diseases.

It must not be forgotten by the eye and ear sufferers that Dr. Van Zandt has made these afflictions an especial study and that he is the only Surgeon in our State who has a diploma for that branch of practice. Very many of the eye and ear troubles are purely deranged nervous action, and are cured by his electro-galvanic battery—as amaurosis, squinting, cataract, floating specks before the vision, twitching of the eyelids, nervous deafness, roaring and buzzing noises in the ears, giddiness, etc. All operations successfully done on those delicate organs of sense.

DR. BAKER'S

PAIN PANACEA.

Is composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases. If they are not satisfied with its healing properties, the money will be cheerfully returned by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning, noon and night. It will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhoea, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe gum at the same time, it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe parts affected morning and night, at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut or galls upon your horse, apply the Pain Panacea, it will take out all the inflammation and heal the sore in a short time.

Ludwig Uhland, the famous German poet and patriot, is dead. Among bards he held a high and honored rank.

It is asserted that five thousand of the teachers of Ohio have entered the army within the last eighteen months.

When the rebel Gen. Wheeler cut off the supplies to Rosekrans' army our soldiers had to live on horse flesh for forty hours.

It is not Kossuth who is dying of consumption, but his wife. The patriot exile is now in Turin attending her with the deepest solicitude.

In the Austrian War Budget, now under consideration, there is an item of 2,500f for feeding cats kept in the victualing magazines.

The number of sea going vessels in the world is about 65,000, two thirds of which belong to England and the United States.

Over 1,000 persons were killed and wounded by railroad and over 300 by steamboat accidents, and about $18,000 000 worth of property destroyed by fire in 1862.

The Louisville *Journal* says, we have read Jeff. Davis' speech at Richmond. If Jeff. and the Devil were to swap places, Hell would gain in malignity what it lost in talent.

The book-publishers, of New York, so the *Express* says, are about to agree together to publish no more books for six months, or until there is a reduction in the price of paper.

One of the English papers lately stated that Great Britain shipped about 13,000,000 pounds of gunpowder direct or indirectly during the first three months of 1862, to the South.

A London editor confessed in a public court in that city that he had been promised $70,000 by the French minister for certain articles favorable to Louis Napoleon. He now sues to recover.

A man in Ohio has succeeded in manufacturing from sorghum seed a very good article of flour, pronounced by all to be superior to buckwheat. The same machinery was used as for the latter, with an ingenious alteration.

The first fire engine proper was made in the sixteenth century. It was on a plan of a squirt gun. Two stalwart Dutchmen worked it—one alternately lowering the nozzle into a vessel of water and directing it to the fire, the other pushing at the piston.

The Boston *Journal* has been issued on paper, made of wood with a small addition of flax or linen stock. The paper is of excellent quality and consistency, working well, and actually requiring less ink than the ordinary paper made from rags. It is of good appearance also.

The Legislature of Kansas is evidently impressed with the opinion that traitors have no rights which loyal men are bound to respect. Two bills have been introduced in the Assembly, preventing proceedings in law by or for the benefit of disloyal persons and rebels. It is believed that some measure of this kind is certain to pass.

A rebel Colonel of Engineers, Adolphus H Adler, who was at one time Chief of General Wise's staff, was recently arrested at Cincinnati, and is now in confinement at Camp Chase. He had been some time at Cincinnati and was understood to have been taking observations and making surveys for the benefit of Jeff. Davis. He claims to be a French citizen and has applied to the French Minister at Washington for release.

War is an ugly thing, but the ugliest of things; the decayed and degraded state of moral and patriotic feeling which thinks nothing worth a war is worse. A man who has nothing which he is willing to fight for, nothing which he cares more about than he does about his personal safety, is a miserable creature, who has no chance of being free unless made and kept so by the exertions of better men than himself.

The Official Gazette of Turin publishes a report addressed to the King by the Minister of Public Works, stating that the Virginia tobacco leaf has risen to such a price, in consequence of the civil war in America, that it has become necessary to seek for a substitute. The Minister, therefore, recommends to the King that he offer a prize of $10,000 for any kind of tobacco, whether home grown or foreign, which shall possess all the qualities of the Virginia leaf. The report is followed by a royal decree to that effect.

The Polish insurrection has developed into a national movement. The gallant countrymen of Kosciusko are fighting bravely against the gigantic power of Russia, but success is impossible. Alexander's policy in that quarter has been in strange and disgraceful contrast with his humane conduct towards his Muscovite subjects. The Poles have unquestionably suffered under the terrible tyranny and have revolted because the rule of the Russians had become intolerable. The insurrection has also a religious cast. The Poles are generally Catholics and hostile to the Greek Church, which is the established Church of Russia.

The ravages of diptheria in the northern counties of Vermont, during the past year, were terrible. In Lyndon, with a population of 1,800, 150 died—nearly every case of diptheria. Whole families were swept away—One family of four beautiful children, with their young mother and her sister, were carried off in the course of a few days. In Danville, where the usual list of mortality seldom exceeds 30, last year it went up to 130. In Burke, one family of four children were annihilated, with the exception of the father, in thirteen days. A lady living in Stewartstown, N. H., lost 14 cousins in the town of Burke. The average length of sickness is three days, but in many cases the destroyer does its work in 24 and 12 hours.

A communication from Toulon, France, in the *Messager du Midi*, says: The laying up of the frigate *La Gloire* in the Castigneau dock has disclosed three unexpected phenomena: First, that the contact of the copper lining and the submerged iron plates had established a galvanic current, which produced the effect of a voltaic pile, and was completely deteriorating the armor of the frigate in the parts below the water line; secondly that a species of shell fish, hitherto unknown, was afterwards discovered among the millions of mollusce, by which the hull was covered apparently produced under the influence of the same galvanic current; and lastly in the hold of the vessel twenty two thousand litres of wine were found to be transformed into vinegar; it is not known by what influence.

The People Firm for the War.—A Washington correspondent of the *Bulletin* sends that paper a letter under date 28th January from which the following is extracted:

It is not to be supposed that recognition of the weakness and mismanagement of national affairs by Mr. Lincoln is dissatisfying the people with the war itself. Here is where the croakers have strangely misunderstood our national character. The people are to-day as courageous and faithful to principle as ever, though the chronic errors of the war administration dampen their enthusiasm they are not to be coaxed or driven out of their stern conviction that the war is just and necessary, and so long as this conviction holds, the more that disaster overwhelms our arms the more resolute is the loyal Northern mind to fight it out manfully to the end. Whatever the opinions of leaders military or political they have no intention of submission—not the slightest idea of admitting that we are poor [illegible]." The war is not over nor will it be for years to come unless the rebellion succumbs. The supporters of the Government [illegible] just as earnestly as the rebel leaders do in slavery, and they are not [illegible] to yield their faith. It is said we cannot carry on the war much longer [illegible], but the conditions must and will change sooner than a great nation can assent to its own destruction. France maintained a million and a quarter of men in the field until she had saved the Nationality which all Europe had combined to annihilate. England fought a war of twenty years to thwart the ambition of Napoleon and in spite of all discouragement maintained her grip until Waterloo settled the question in her favor. Prussia endured a war for many years and sacrificed one sixth of her able bodied male population in order that she might become a kingdom instead of a French dependence, and the little Dutch Republic fought for a score of years against the Inquisition. Can it be, in view of these historical facts, that we are to faint by the way in the second year of the struggle? Are we to recede from a struggle involving not only our own political and national prosperity and salvation, but the holy aspirations of human freedom as well? Can we resign a cause freighted with the hopes of humanity for all time to come? The cravens who believe that eighty years' experience of republican institutions have so sapped the stamina of American manhood as developed by our forefathers in the seven years' war of revolution, take counsel of their own cowardly fears alone.

An Irishman who was at the celebrated battle of Bull's Run, was somewhat startled when the head of his companion on the left was taken off by a cannon ball. A few minute after, however, a spent ball broke the leg of his comrade on the other side. The latter threw down his gun and howled with pain when the Irishman rushed upon him exclaiming, 'You owld woman, shtop cryin'! You are making more noise about it than the man who lost his head.'

Gunpowder made of paper is the latest novelty. A letter from Copenhagen says that the Royal Artillery Board of Denmark has just made successful experiments with the new material. Common packing paper was, in the course of ten or fifteen minutes, transformed into a very powerful kind of gunpowder, and a number of shots fired with it.

Why is a newspaper like an army? Because it has leaders, columns and reviews.

PROSPECTUS.

THE UNDERSIGNED TAKE PLEASURE IN announcing to the citizens of Dalles City, Wasco County and the public generally of Oregon and Washington Territory that on or about Monday, the 6th day of April we will commence the publication of a Daily and Weekly Newspaper at Dalles City, Oregon to be called the

"DEMOCRATIC STATE JOURNAL."

The Journal will be devoted to the interest, the principles and augmentation of the Democratic organization upon the basis of the State and National platforms of that party upon which the late glorious victories in the great States of New York, Pennsylvania, Indiana, Illinois, Ohio and New Jersey were achieved and of which such noble and patriotic statesmen as Seymour and Richardson are the champions and defenders. It shall be the aim of the Journal to aid the Democratic party unswervingly by speaking the truth and discussing public [illegible] fully and fearlessly, without hope or expectation of favor or reward other than the proud satisfaction of doing the duty of an American citizen.

Due and ample attention will be paid to the mining interest by chronicling all information of discoveries and operations in the extensive and gradually developing gold fields East of the Cascade Mountains. To secure early, full and reliable intelligence upon this important branch of industry arrangements have been perfected which will secure to the Journal authentic and regular correspondence from all the different localities attracting public attention. The interest of the State both general and local will receive prominent attention. In a word we are determined to publish a journal that any one may peruse with profit to all.
